REPORTING RESULTS USING THE NWCA DATABASE 2008-09

Follow the Steps on Pages 1 and 2 (in order) to get your team set up. Once they are completed you are ready to enter results and print individual record forms (using the instructions form page 3 onward).

Your computer will need Adobe Acrobat when you are ready to print and save individual wrestlers record sheets. This program is already installed on most computers.

You will receive a Login ID and a password thru your Athletic Director via the NYSPHSAA office. As of 1/1/09 your Sectional Chairmen will also have the Login ID info for you. Your Login ID will be NY (followed by a number), your temporary Password is a 5 Digit pre-assigned number (that you will eventually be able to change to something more meaningful to you).

ENTERING THE NWCA WEBSITE:

- Access the internet and type in: NWCAonline.com
- Hold the mouse over the "Weight Management" tab in the main menu and then the "Optimal Performance Calculator (OPC)" will highlight below it.
- Click on the "Optimal Performance Calculator (OPC)".
- Next Click on the "Login" tab that appears when the OPC window opens. Now enter your assigned Login ID and password. (Passwords are case sensitive).
- You will be given the option to change your password to something that is more familiar to you, but your Login ID will always be the assigned NY#. Once you are logged in successfully, the center of the screen will read "Welcome NY#, you are logged into the OPC". This is the Main Menu. You can return to it from most of the other screens you will be using by clicking on a link at the bottom of most screens that says "Return to Home"

FIRST TIME USING THE WEBSITE:

- The fourth tab over is for "Coaches" and it has 5 sub items under it when you hold your mouse on it. Click now on the fourth item down "**Team Roster Grid**".
- Your team roster should appear (it was pre-loaded from your weight assessment data). It will list your wrestler's names (alphabetically), their grade, and their certified weights. There is a strong possibility that some of your wrestlers will have their names spelled incorrectly or the wrong grade indicated. Your first step should be to correct the misspellings.

CLICK ON "EDIT" (in front of their name) TO CORRECT SPELLING MISTAKES:

- Change either their first, last name or grade then click on the word "Update" in front of their name (where it used to say "Edit") and your correction should now be made.
- If one of your wrestlers was entered twice: Remove one of them as follows:
Click on the orange link at the top of the Team Roster Grid "**Click here to remove wrestler from the roster sheet**" then Un-check their name(s), then go back to the top and click on "**Save Roster Choices and Return to Roster Grid**"
- (FYI: You are not able to Edit the Certified Weight Class (MWC). If this is incorrect, contact your Regional Assessor).
- After all corrections have been made it is time to enter your schedule. Go back to the "Coaches" tab at the top of the screen. Click now on the last item down "**Team Competition Schedule**".

ENTERING YOUR TEAM'S SCHEDULE:

Every item you enter in this section will require you to enter results for the contest when it is competed. From the "Coaches" tab at the top of the screen. Click now on the last item down "**Team Competition Schedule**".

Do this step chronologically if you can. Start with your first contest and go all the way thru your qualifiers, Sectional and State tournament. When you have JV matches in addition to Varsity matches, enter the JV match as a separate event on your schedule

- Click on the Drop down arrow and select either Dual or tournament for the schedule event you want to enter first then hit Tab to advance to the Blank Box to the right.
- Next enter your Dual Opponents name or the Tournaments name. Hit Tab to advance to the Drop down for Home or Away. Hit Tab to advance to the Calendar. Click on the down green arrow to pop-up the calendar, find your date, click on it and Hit tab to advance to the blank Time box. Enter the events starting time. Hit tab to advance to the blank Location box. Enter the Events location and hit tab.
- To ADD this event and to get to a new line you must click on "ADD". "Add" is probably off your screen at this point. It appears after the "Comments" column and you may have to scroll your screen to the right to find it.
- When you Add your first event the 6 event type choices (listed above) drop down box will appear again at the end of your schedule. Continue with the above steps until all of your contests have been entered. (Remember if the event is a Varsity and JV event- enter them both as separate events but use the same date for both)
- **MISTAKES made entering your SCHEDULE?**
- Click on "Edit" (in front of the incorrect contest), make the changes needed by using the Tab key to advance from one field to another. When correction has been made click on the word "Update" in front of the contest (where it used to say "Edit") and your correction should now be made.
- If needed you can also click on "Delete" (in front of the incorrect contest) if you want to remove it permanently.
- After all corrections have been made you are now ready to enter in results from your contests as they occur.

If more than one wrestler on your team has a last name starting with the same letter, their name may appear instead.
